Billing Information for your Procedure at Hanover Endoscopy Center

You are scheduled to have a procedure performed at the Hanover Endoscopy Center. Please note that the Hanover Endoscopy Center is a **facility** setting, not an office setting. You need to check with your insurance carrier to determine what your financial responsibility will be. After your insurance claims have been processed, you **may** receive the following bills:

- A statement from Hanover Endoscopy Center. A deductible may apply. Call your insurance carrier to learn your out of pocket responsibility.

- A statement from the physician who performed the procedure. This statement will be from Affiliates in Gastroenterology. A deductible may apply. Call your insurance carrier to learn your out of pocket responsibility.

- A statement from the laboratory that examined the biopsies, if any were obtained. A deductible may apply. Call your insurance carrier to learn your out of pocket responsibility.

- A statement from the anesthesiologist who administered anesthesia

The anesthesia group is non-participating with many of the insurance carriers. Therefore, a check for services provided by the anesthesiologist may be sent to you by your carrier. If you receive a check from your insurance carrier for the anesthesia portion, please endorse the check and send it with a copy of the explanation of benefits to:

Ambulatory Anesthesia Physicians
